CHAPTER II
THE "BIRD FRIENDS"

THAT the "Bird Friends" of the "Centre's Herald" were the first to be organized in this country, is a fact which is well known to all who are interested in the history of the movement.

The "Bird Friends" were organized in 1871, and since that time they have been growing in number and influence. They have done much to advance the cause of bird protection, and to bring about a better understanding of the value of birds to humanity.

The "Bird Friends" have been successful in securing the passage of many laws which protect birds, and in securing the establishment of many bird sanctuaries. They have also done much to educate the public in the value of birds, and to bring about a general feeling of respect for all forms of life.

He was in the hospital, where they were looking after him, but he was not feeling any better. He was still weak and pale, and he was still coughing and spitting up blood. He was still looking for a way to get out of there.

"What do you mean, 'a way'?" he asked. "What way?"

"I don't know," he said. "I just know I want to get out of here. I want to go home. I want to see my family. I want to live."

"You can't go home," said the doctor. "You're still too weak. You still need more rest. You still need more medicine. You still need more care. You still need more time."

"But I can't wait!" he said. "I can't wait for you to tell me when I can go home. I can't wait for you to tell me when I can see my family. I can't wait for you to tell me when I can live."
