

October 8th, 1960

ROSE LAWN,
KINGSGATE-ON-SEA,
BROADSTAIRS,
KENT.

Dear Chapman,

Thank you for a very pleasant letter, old boy.
I was, as you may guess, quite delighted to do the "Minister
of Education" article for Punch, and it added very considerably
to my pleasure when I was asked for your address, for what is
Richards' letter/press minus Chapman's illustrations? I am
quite sure that I shall be pleased with the picture when I
see it--cela va sans dire,----but I think it will be rather
later than you suggest: from the list in Punch this week
it seems to be booked further on in the series. It is
very kind of you to say that you liked the article so much.
To tell the truth, I rather liked it myself,--but then, I always
have that feeling about my own works!

I have just had my copies of the BEO, and see that
you are quite up to form as usual. The recent weather has
brought a few twinges to my venerable limbs: the rain it
raineth every day! But what's the odds so long as you're 'appy?
r

Kindest regards,

Always yours sincerely

Frank Richards
