## A LIST OF ALL ISSUES

It has been felt for some time there was a need for a list of all Magnet titles, whether original or substitute stories, and whether reprinted. We have accordingly drawn up the following list giving the information, and hope that it fills the long felt want. If any reader notices any discrepancy (one must allow for the human element) it would be appreciated if they would notify Eric Fayne, so that it can be published in the C.D. to enable the text to be personally amended.

It will be noted that each year has been segregated, and at the commencement of each series the total number of stories appears in parenthesis. To assist those seeking further information re details of the various series we would refer them to the article ("Magnet Masterpieces") by John Geal in the 1949 C.D. Annual.

It was originally intended to include a list of Greyfriars reprints in the "Popular". This would have added another 12 pages, and as no precise information concerning the originals is available, it was felt that the additional expense would not be justified.

We hope this book will prove beneficial to all our fellow collector friends. It has been a labour of love.
